## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lin in view of Awschalom et al for the same reasons as urged in the 5<sup>th</sup> office action.

### *Response to Arguments*

Applicant's arguments filed 5-9-03 and second Declaration have been fully considered but they are not persuasive. Applicants argue in the second full paragraph on page 2 of their remarks that " neither Lin nor Awschalom disclose in situ annealing as the term ... is defined in the specification. The examiner is not convinced by this argument since applicants have not identified what part of applicants' defined in situ process is missing from the reference. It is the examiner's position that the in situ processes disclosed by the references are encompassed by applicants' in situ definition. This is especially true since the secondary reference discloses that a less contaminated product is produced in the in situ process.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1762

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
